About the Wellbeing Economy Alliance (WEAll)

WEAll is a new global collaboration of organisations, alliances, movements and individuals working together to change the economic system so it becomes a wellbeing economy: one that delivers human and ecological wellbeing. Our primary focus is the creation of a new power base to apply pressure at all levels for economic system change, to influence societal values and norms, and to help catalyse the formation of an effective and dynamic global movement. This focus will be supported by the creation and dissemination of positive new narratives and will be underpinned by a strong and coherent knowledge and evidence base.

Supporting WEAll is a dedicated core (Amplification) team. Funding is required not only for projects and initiatives co-created by its members that span the different parts of WEAll's strategy, but also to support this core team in their efforts to amplify the work of WEAll and advance its operational effectiveness.
